Covey CS: Professional Advancement and New Hire

Covey CS, a local consulting and software development company, is proud to announce the newest member of the team, Marketing Assistant, Lea Weir. Lea comes to us from a digital marketing management and customer service background. Her hire is a step towards growing our company through marketing and the development of B2B relationships with manufacturers in need of consulting and customizable software solutions.

“I am thrilled to be a part of the Covey team! I am really looking forward to the work and seeing where a great marketing strategy can take us. This position is a great opportunity for me to pursue a career in a challenging field that I can embrace and thoroughly enjoy.” - Lea Weir

Covey is also proud to announce the promotion of Andrew Seriani to Software Developer. Andrew began his work with us after attending MVCC’s Computer Applications Programming program where he first met Jason Covey. After progressing through the program, Andrew began as an intern and has worked with us ever since. We are looking forward to his advancement in software development and to relying on a strong team member to help lead the way.

“I am looking forward to this exciting opportunity to learn and contribute as much as I can for our highly respected clients.” - Andrew Seriani
