

MANUFACTURING MATTERS

MACNY Expands Widewaters Office

Come check out our new space!

The Manufacturers Association

We are excited to announce that our office space has been expanded to include 4,306 square feet of new space. The new space will be dedicated to workforce development to include: Partners for Education and Business (PEB), our apprenticeship team, and the CNY School Boards Association (CNYSBA).

The new space includes a large conference room that can be used for meetings and training events—by both MACNY and our members; a large kitchen/eating area with plenty of tables for our staff and members; and an open seating area surrounded by natural light for casual events and for members to connect with members.

So you may be wondering, what does this mean for MACNY Members? This means that we now have additional space to hold events and additional space for our members to come and meet with our staff or other members. We thoroughly encourage all our members to come check out the new space—we know you'll love it.

For a full tour, join us at our annual Post-Holiday Party on January 18 from 4:30 - 7 PM where we will be showing off the space. To register for this event, visit www.macny.org/events or contact Julianne at jpease@macny.org.

As a reminder, all of our common space, both in the new and existing spaces, is available for MACNY members to reserve for private meetings. To reserve space, call our office at 315-474-4201.
