

Get involved in celebrating manufacturing

Manufacturing Day Site Tours | October 7th

October is the national celebration of Manufacturing Month, which annually kicks off on the first Friday of the month. On October 7th, manufacturers will offer tours of their facilities to showcase innovative technology, opportunities to see how local products are made, and inspire the next generation to pursue careers in manufacturing.

Manufacturing Day Site Tour and Locations:

Tours are 1.5 hours. Available tour start times are 9 AM, 10:30 AM & 1 PM.

Westrock (Solvay Mill)

Ever wonder who makes the box your pizza gets delivered in? Come & see how these boxes & lots of other packaging is made right here in Syracuse!

Gear Motions (Solvay)

Next time you're at the airport waiting for your suitcase to glide up to you on the conveyor belt, think about the gears that make it happen. Gear Motions makes these high precision components for a lot of other uses too, including aerospace, automotive, and printing applications, just to name a few.

Knowles Precision Devices (Cazenovia)

Radar, pacemakers, MRI equipment, satellites, airplanes, electric vehicles, and mobile phone base stations are just a few of the places you'll find at Knowles Precision Devices - from 8,000 feet underground to over 250 miles above us, orbiting the Earth.

Schneider Packaging (Brewerton)

In April of 1970, America celebrated its first-ever Earth Day. You know what else happened that year? Schneider Packaging was founded! Over 50 years later, they're still designing state-of-the-art machinery for customers in food and beverage, dairy, pharmaceutical, personal care, and paper industries.

*Only 1 tour being offered from 9 - 11 AM.
